

IT'S REVOLUTIONARY!

# The Chevrolet Corvette

*America's Sensational Sports Car!*

**ON DISPLAY  
AT THE  
MICHIGAN  
MOTOR SHOW**

**State Fairgrounds**

**JUNE 2-7**

*Creating a sensation everywhere!* The new Chevrolet Corvette has been received with a storm of enthusiastic approval wherever it has been shown.

The racy new Corvette sets a new style for a new field—the American sports car. Barely 33 inches high at door level, it has broad low lines and a road-hugging center of gravity. The smoothly contoured glass-fiber body is surmounted by a rakish back-swept windshield. A smart fabric top folds into a concealed compartment in the long rear deck just ahead of a commodious luggage locker. The spacious two-place cockpit is beautifully styled and finished throughout in typical sports car tradition.

As for performance . . . it's thrilling. A 160 h.p., extra-high-compression "Blue-Flame" engine is teamed with the new Powerglide automatic transmission . . . a combination that makes the Corvette an outstanding performer on any road, under any condition.

This is a car of which we can say with complete sincerity, "You have to see it to believe it." The Corvette is scheduled for limited production during the last half of 1953.

**YOUR CHEVROLET DEALER**

***More people buy Chevrolets than any other car!***
