

**CHRYSLER**

CAN LUXURY  
COME WITH A  
**340 HP  
HEMI®?**

**ABSOLUTELY.**

## 2005 300

Chrysler's in-your-face design appeals to the right people, and whether it was the Bentley-esque stance or the powerful Hemi engine, there's something here that pushes the right buttons. This is the hottest thing to come out of Detroit since Aretha, Eminem and the World Champion Pistons combined.

**CLASSIC STYLE**

Elegance comes standard on the 2005 Chrysler 300. An aerodynamic exterior delivers refined wind-noise management, enhancing fuel efficiency and creating a quiet interior. In addition, the 120-inch wheelbase and "wheels-to-the-corners" design provide not only a more balanced ride, they actually increase interior space for you and your passengers.

**RWD**

It's something you haven't seen on a Chrysler performance sedan in over fifteen years, but this rear-wheel-drive system provides a whole new driving experience. Design and engineering advancements combined with new, world-class technologies offer all the advantages of rear-wheel drive and the confidence of maximum driver control.

The All-Wheel Drive (AWD) system Available on 300C, 300 Limited and 300 Touring, means better acceleration, especially when traction is limited. It provides power to both axles at all times; 62 percent of the engine torque to the rear wheels, and 38 percent to the front wheels, to provide the rear-wheel drive feel essential for performance sedans. A planetary center differential allows the axles to rotate at different speeds, necessary for cornering.

**POWER**

The 5.7L HEMI® Multi-Displacement System (MDS) V8 engine with 340 horsepower at 5,000 rpm and 390 lb-ft of torque is standard on 300C, making it the most powerful sedan in its class.\* The MDS system allows the engine to operate on four cylinders when power demands are minimal for an up to 20-percent increase in fuel efficiency. This provides the power of a V8 with the economy of a large V6. (EPA estimated mpg: 17 city/ 25 highway)

The 3.5-liter high-output V6 single overhead camshaft (SOHC) engine with 250 horsepower at 6,400 rpm and 250 lb-ft of torque, standard on 300 Touring and 300 Limited. (EPA estimated mpg: 18 city/ 28 highway)

The 2.7-liter double overhead camshaft (DOHC) 24-valve multiport fuel injection (MPI) V6 engine with 190 horsepower at 6,400 rpm and 190 lb-ft of torque, standard on the 300. (EPA estimated mpg: 21 city/ 28 highway)

\* Based on 2004 Automotive News midrange premium car segment. Excludes other DaimlerChrysler vehicles.

For more information, please visit [www.chrysler.com/300](http://www.chrysler.com/300)

**AVAILABLE EXTERIOR COLORS**

\* Available at extra charge † Signature Series available in these colors

**CHOOSE YOUR OWN VEHICLE OF RELAXATION**

- 300 - Cloth available in Dark Slate Gray [A] with Light Graystone upper trim [1] or Medium Slate Gray [B] with Dark Slate Gray upper trim [2]
- 300 Touring - Leather trim available in Light Graystone [C] with Dark Slate Gray upper trim [2] or with Deep Jade upper trim [3], or Medium Slate Gray [D] with Dark Slate Gray upper trim [2]
- 300 Limited - Leather trim available in Light Graystone [C] with Dark Slate Gray upper trim [2] or with Deep Jade upper trim [3], or Medium Slate Gray [D] with Dark Slate Gray upper trim [2]
- 300C - Premium leather trim available in Medium Slate Gray [E] with Dark Slate Gray upper trim [2] or in Light Graystone [F] with Dark Slate Gray upper trim [2], or with Deep Jade upper trim [3]
- 300 Signature Series - Two-tone accented leather-trim seats in Dark Slate Gray and Light Graystone along with the Dark Slate Gray and Light Graystone interior trim combination [not shown]

**WHEEL OPTIONS**

17-inch bolt-on wheel covers standard on 300

17-inch painted aluminum wheels standard on 300 Touring

17-inch chrome-clad aluminum wheels standard on 300 Limited

18-inch chrome-clad aluminum wheels standard on 300C

18-inch polished aluminum wheels standard on all 300 AWD models

For more information, please visit [www.chrysler.com/300](http://www.chrysler.com/300)

**INTERIOR**

This spacious well-appointed interior features Satin Silver accents and an elegant analog clock. Its handcrafted interior feel continues with the refinement and sophistication of optional real California walnut trim. For the ultimate in luxury, 300C comes standard with industry-first tortoiseshell accents on the power tilt and telescopic steering wheel, shift knob, and door pull handles.

**UCONNECT™**

Available UCONNECT™ voice-activated hands-free communication system allows you to talk on your Bluetooth™ compatible wireless phone

**SOUND SYSTEM**

Cruise the streets and turn up the available AM/FM stereo with integral six-disc CD/MP3 player and full-screen navigation. For a seriously stellar sound, couple it with a Boston Acoustics 368-watt digital amplifier and subwoofer (available only on 300C). Performance characterized by a smooth octave-to-octave tonal balance, natural frequency response, and uncolored presentation free of distortion, from the very softest to the loudest passage, identifies the Boston Sound™ - a faithful reproduction of the original recording.

**GPS NAVIGATION SYSTEM**

The available integrated DVD-based GPS navigation system will give you turn-by-turn directions and a full-screen display to get you back on the right road.

**PARK ASSIST**

Available from Chrysler for the first time on Chrysler 300C, the Park Sense™ rear-object detection system supplements the driver's mirrors in parking situations to let you know if an obstacle is in the way while in reverse. The system uses ultrasonic sensors to scan for objects up

to 71 inches behind the rear fascia, and then provides both visual and audio warnings if something or someone is detected.

\* Detects most stationary obstacles. As with any electronically controlled system, care is advised. The Rear Park Sense™ visual alert is located in an overhead display at the rear of the vehicle, and is visible through the rearview mirror's reflection. Visual warning is smaller than displayed in this image.
