

# 1964 Chevelle Production

In 1964 only, the series and engine type (base L6 vs. base V8) are the 1st & 2nd numbers and the model (body style) is the last two numbers. The first number shown in the 'Produced' column is domestic production, the second number is export production, and the total production is the last number.

The Series/Model columns correspond to VIN series & body style and not Fisher Body plate Style numbers.

## Caveats:

(1) The total production according to the [reported last VIN of each assembly plant](#) totals 358,963 units leaving 11,871 units unaccounted for in U.S production:

$370,834 - 358,978 \text{ (VINs)} = 11,856$

(2) Production for Canada is reported at 16,285 units; 10,761 L6 and 5,524 V8 Chevelles but are not broken down by specific series/model.

Vintage Vehicle Services documentation does indicate 1,425 Malibu SS sport coupes (5837) were built for sale in Canada.
